# PowerPoint 2007: Embedding Dailymotion Videos

## Prepare the Environment

1. Open PowerPoint
2. Add the Developer tab
   a. Go to the **Office Button** and click on the **PowerPoint Options** button
   b. While on the **Popular** tab, check the box for **Show Developer Tab in the Ribbon**
   c. Click **OK**
3. Open your browser and find your video on Dailymotion.
4. Copy the **Embeddable Player** (URL) and return to PowerPoint.

## Embed the Video

1. In PowerPoint, click on the **Developer Tab**.
2. Click on the **More Controls**... button in the **Controls** group.
3. Select **Shockwave Flash Object**.
4. Click **OK**.
5. On the slide, click and drag to draw a placeholder for the video.
6. Open a new **Word** document and paste the **Embeddable Player** link into a blank document.
7. Copy the first HTTP link. It is between quotation marks, and is highlighted in the example below.
8. In PowerPoint, right-click your placeholder box and click **Properties**.
9. In the empty cell next to **Movie**, paste the copied URL.

## Cite the Source

1. **Insert a text box** under the video placeholder (**Insert tab → Text box**)
2. Paste your **URL** in the text box.
3. You may also cite your source in a bibliography slide at the end of your presentation.
# PowerPoint 2007: Embedding YouTube Videos

## Prepare the Environment

5. Open PowerPoint  
6. Add the Developer tab  
   a. Go to the **Office Button** and click on the **PowerPoint Options** button  
   b. While on the **Popular** tab, check the box for  
      **Show Developer Tab in the Ribbon**
      ![Show Developer Tab in the Ribbon](image)
   c. Click **OK**  
7. Open your browser and find your video on YouTube.  
8. **Copy the web address** (URL) and return to PowerPoint.

## Embed the Video

10. In PowerPoint, click on the **Developer Tab**.  
11. Click on the **More Controls...** button in the **Controls** group.  
12. Select **Shockwave Flash Object**.  
13. Click **OK**.  
14. On the slide, click and drag to draw a placeholder for the video.  
15. Click the **Properties** button in the **Controls** group.  
16. In the empty cell next to **Movie**, paste the video’s URL.  
17. Edit the URL this way:  
   a. Change the **=** to a **/**, then delete “watch?”  
   b. http://www.youtube.com/watch?v=Jll5b  
   c. It should now look like this  
   d. http://www.youtube.com/v/Jll5b

## Cite the Source

4. **Insert a text box** under the video placeholder  
   (Insert tab → Text box)  
5. **Paste your URL** in the text box.  
6. You may also cite your source in a bibliography slide at the end of your presentation.
