## Google Slides: Inserting YouTube Videos

### Prepare the Share Link
1. Open your browser and select a video on YouTube to insert.
2. Below the video, click the Share button.
3. Click the Share button.
4. **Copy the share link** and return to Google Slides (the Start at option doesn’t work in Google Slides!)

### Insert the Video
1. In Slides, click on the **Insert** Tab.
2. Select the **Video** option.
3. Click the URL tab, paste the link, then click **Select** to insert the video.
4. Your video is now in your slideshow. You can click and drag on it to resize it to fit your slide.

### Cite the Source
1. **Insert a text box** under the video placeholder.
2. **Paste your URL** in the text box.
3. You may also cite your source in a bibliography slide at the end of your presentation.
